# TESTING INSTRUCTION

**Step - 1 :**

Go to the Actions Console Simulator using the link below.
**Simulator Link:**

https://console.actions.google.com/project/miss-lily-2e318/simulatorcreate?isDeepLink
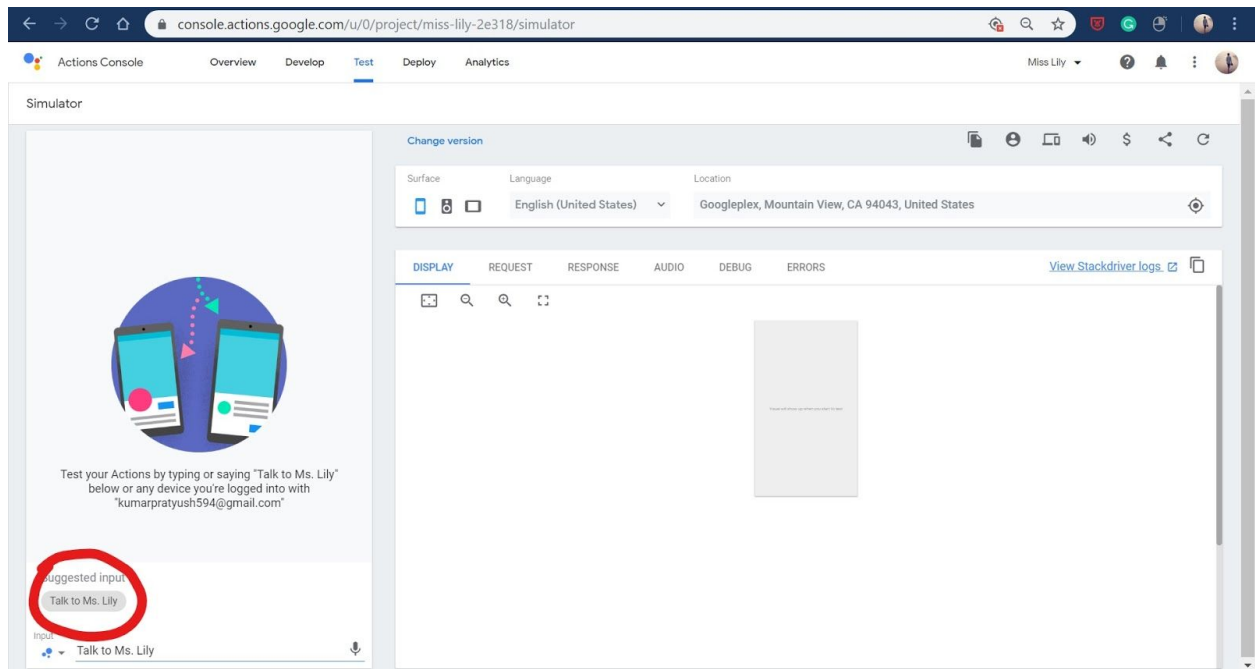

**Step - 2 :**

**Login to the Action's Simulator using the following ID and Password to test :**
**UserId** :- *representative.philips@gmail.com*
**Password**:- *philips@123*

# Step - 3 :

After you log in click on "Talk to Ms. Lily":

   The display part of the simulator shows how the action will look when opened on a mobile phone or any other screen which supports Google Assistant when deployed. Now normally go with the flow and test the action. :)

Here's a link to help you more.
